

Dear Exhibitor,

We will greet the 17th CPCA SHOW on March 18-20, 2008. With EP China, SEMICON China and LASER World of Photonics China again, CPCA SHOW 2008 will promote a bigger scale of the electronic industry and the extending of the industry link. For the first time, World Electronic Circuit Council will be held at the same time in Shanghai, China and will bring great honor to this event.

The four world famous electronic exhibitions will occupy an exhibiting space of 130, 000 square meters, with about 2,700 exhibitors. Some 85,000 professional visitors will be invited to the show. This year, we have specially arranged the exhibiting zones for PCB manufacturing, Water Treatment & Cleanrooms Technology and Equipment.

After a 17-year development, CPCA Show has grown up to be one of the most important event of the industry and has attracted more focus from the world. With the 11th WECC and the development of PCB industry in China, CPCA SHOW 2008 is expected to present a new image and inspire more vitality for the industry.

We include general information, rules and regulations, shipment and drayage, constructions, exhibiting and dismantling, and comprehensive service information in this Exhibitor Manual. Please make full use of the information to schedule your presentation efficiently.

On behalf of the organizer of the show, I wish all exhibitors a great success and a big harvest. Your presence at CPCA SHOW 2008 is cordially expected in March, in Shanghai.

Best wishes,

Xiaoyan Yuan

1. Exhibiting Zone & Booth Allocation Criteria

■ Exhibiting Zone

For a better effect of the exhibition, the show will be divided into:

Printed Circuit Board	Electronic Assembly	Related Industry	Others
PCB Manufacturing PCB Equipments PCB Raw Materials and Chemicals	Electronic Assembly Equipment Electronic Assembly Materials Electronic Manufacturing Services / Contract Manufacturing	Water Treatment Technology and Equipment Cleanrooms Technology and Equipment	Media research Institute Association & Consultatino

* Booths allocated after the deadline of application may not be arranged into the above-mentioned area.

Allocation Principles

- The general floor plan will be arranged by the organizer. The right of finalizing the exhibiting zone and the number of the booths is reserved.
- Appliers for more booths and space will be given priority. In case of the requirement of the same number of booths, the order is decided by lot.
- Each exhibitor should select immediately adjacent booths. Selected booths situated across the aisle from each other are not allowed.

2. Rules & Regulations

- Exhibitors are prohibited to transfer, sub-lease or exchange their booths allotted to them to other parties without the organizer's permission. Exhibiting any items unrelated to the exhibition is strictly prohibited. In order to guarantee the interests of the whole exhibitors, the organizer is entitled to drive the related persons out of the venue. The related goods will be confiscated, and all payments are non-refundable.
- Exhibitors are prohibited from forging, lending or selling their exhibition passes.
- Exhibitors must maintain the noise levels of the exhibits or promotional activities at or below 70 decibels.
- Exhibitors are prohibited from distributing their promotional materials outside their booths or in public areas. The organizer is entitled to remove the promotional materials and return after the exhibition.
- If exhibitors withdraw from the exhibition, they are prohibited from sub-letting or transferring booths allotted to them to other parties. Under that circumstance, the Organizer reserves the right to re-allot the area.
- Exhibitors should make sure the sign and mark of the products comply with the producing place. Any copying and pirating are strictly prohibited. The Organizer is entitled to quit the violator's exhibiting. The entire paid participation fee is not refundable. The exhibitor will receive the punishment by government according to related laws and regulations.

3. Security & Insurance

- The Organizer shall provide personnel for maintaining order and shall take all security precautions in the interest of exhibitors and visitors during the exhibition. However, responsibility for guarding the stands during the build-up, exhibition and dismantling period shall rest with the exhibitors' concern. The organizer shall not hold responsibility for any loss or theft of exhibits during the build-up, exhibition and dismantling period. The organizer shall also not hold responsibility for any loss or damage to exhibitors or any articles belonging to the exhibitors.

- Exhibitors are solely responsible for the safety of their stands and personnel during assembly, the actual trade fair and dismantling. In addition to insurance for exhibits in transit between the port of shipment and the fair site, exhibitors are advised also to take out adequate insurance (fire, theft, water, accident, natural disasters and third party liability, etc) during the build-up and dismantling periods. The organizer shall also not hold responsibility for any loss or damage to exhibits or any articles belonging to the exhibitors.
- All exhibitors shall insure, indemnify and hold the organizer and the venue owners not liable with respect to all claims, demands and expenses to which they may be subjected as a result of loss or injury occurring to any persons howsoever caused while the said persons are examining or passing the booth during the exhibition. The liability or risks to employees, agents or exhibits shall be the sole responsibility of the exhibitors.

** The organizer reserves the right to provide explanation for any items unlisted in this part.*

4. Exhibiting Hall Regulations

■ Booth Construction and Dismantling

- Materials used for the construction and installation of the exhibition booths and any other structures must consist entirely non-combustibles with a burning diffusion rate not lower than Class 2 as required both the national and local fire-control regulations of Shanghai..
- Any behavior which could hamper the normal operation of the fire protection system and central supervising system, including the fire-alarm bell contact, the fire hydrant, fire extinguisher and fire escape is forbidden.
- Free movement in and access to the fire control aisles, emergency fire escape routes and emergency exit must be ensured.
- A passage of at least 1.2 metres (4 ft) wide between any temporary structures and the fire hydrant, equipment room doors and alarm bell contacts must be maintained.
- A repaired passage of at least 1 metre wide between any temporary structures and the wall surface shall be kept.
- Each row of the booths must not be longer than 32 metres, and all the passages must be at least 3 metres wide, and strictly complying with the standard booth layout provided by the Centre. The maximum height of construction is 6 metres for one-storey booths and 7.5 metres for two- storey booths or above in halls.
- No. objects can be attached to or suspended from the fire sprinklers or lighting fixtures on the ceiling. The spotlights and other heat-generating equipment are not focused on nor be stationed near the fire sprinklers.
- Shanghai New international Expo Centre will assist exhibitors in the management of the forwarders and stand-fitters. The exhibitors shall inform all the forwarders and stand-fitters to submit their worker' name lists as well as ID copies one week prior to the move-in, so that Shanghai New International Expo Centre can produce standard working permits for them. Workers without permits will not be permitted to work in the Center.

The stand-fitters should carry out their work according to the floor plan approved by fire-control authority. No change is allowed without permission.

Shanghai New international Expo Centre shall be entitled to remove any form of construction or structure which is not approved or violate the above-mentioned guidelines. Exhibitors shall be responsible for risks and expenses that may occur.

All workers entering into the Centre for specify-type work must possess "Shanghai Specific-type Operator Certificate" (electricians, welders or forklift drivers and others). Operators without certificates are not allowed to work. All relative operation rules and procedure must be strictly obeyed. Non-complying operation and supervision are strictly forbidden.

■ Rules of Examining Design Drawings of Booths Construction

In order to enhance the management of booth construction and ensure the safety of on-site construction in the Center, the following rules must be complied with by exhibitors and all involved parties:

All design drawings for booths with a height of over 2.5m, or of more than one storey, or with hanging points, or built outdoors, must be examined. Please review "Form for Examination and Approval of Multi-storey Booth Designing" and "Stipulation of Examination and Approval of Multi-storey Booth Designing" in "Construction, Exhibition and Dismantling" part of the manual.

As for raw space construction, please see "Raw Space Construction" for references.

■ Hanging Points on the Ceiling

- No hanging object is allowed in the Centre without permission. Each permitted hanging point may bear an object which weighs no more than 200 KG. The professional staff of the Centre shall conduct the hanging work. The hanging point can not be used to fix the structure connected with the floor.

■ Overhead Work

Operators who are engaged in overhead work (height \geq 2M) must wear safety helmets and safety belts, and carry out necessary safety measures against injuries that might be caused by falling objects.

Only qualified overhead operation tools may be used; unqualified ones are expressly prohibited. When passing tools or objects, throwing is forbidden. Methods such as hand-to-hand passing, or conveyance of tools or objects by bags, or lifting up and/ or down with ropes, shall be adopted.

Unqualified operators are forbidden to do overhead work, and it is also strictly forbidden to do overhead work after drinking alcohol.

■ Electrical Installation

- In the case of booths which require 24 hours power, or an extended supply of electric power, water, compressed air, gas or telephone connection, the organizers should apply to Centre for permission in advance.
- Safety inspection must be carried out by organizers before connecting electricity and gas. Upon receipt of the safety confirmation and the notice of connecting or gas electricity, Shanghai New International Expo Centre will supply electricity and gas to organizers and exhibitors within two hours.
- The maximum electrical capacity and extra allowance shall be taken into consideration when applying for electric wattage. The electric facilities must not be overloaded or heat up, and the safe operation must be ensured.
- The installation personnel for electric lines and facilities must hold valid electrician operation certificates.
- Electrical material used in operation shall be qualified by the examination of the relevant authorities. Double-sheath copper wires and cable lines must be used, and the section of the conducting wires must be $\geq 1.5\text{mm}$. Electrical materials must be equipped with enough safe loading capacity. It is strictly forbidden to use single wires with on sheath, twist pairs or aluminum wires. As to the configuration of wires, three-phrase five -wire system shall be applied for the line voltage (L1 L2 L3 ,N, PE) and single-phrase three-wire system for phrase voltage(L, N, PE)
- All metallic structures and shells shall have a reliable grounding. The conducting wires should be fixed in a cellular or other form instead of being randomly installed on roads, grounds or doorways. Electric lines crossing passageway shall be protected by a cable bridge. When sub-circuits are connected, insulating porcelain and plastic joint must be used instead of being wrapped directly by insulating adhesive tape before any insulation protection measures are taken.

- All portable/mobile electric tools used shall be qualified and comply with the “minimum requirement “regulations. Temporary power lines for construction must be sheathed copper wires with no joints in the middle and its length should be within 5 meters. It is strictly forbidden to put wires without plugs into receptacles directly.
- The distribution box for standard exhibition stands must be installed in a cable duct in the exhibition hall, while the distribution box for special exhibition stands must be installed in a cable duct or in the exhibition stand. It is strictly forbidden to leave a distribution box in doorways, fire-control passages or any conspicuous place in exhibition stands.
- High-temperature lamps like iodine-tungsten lamps and neon lights shall not be installed without permission and examination from the relevant authority. The installation height of neon lights shall not be less than 2.5 meters.
- Outdoor electrical and lighting equipment shall be moisture-proof. Safety measures such as moisture-proofing and weather-proofing, etc. shall be implemented.

 - d) No painting near the Centre’s vertical structure(i.e. walls)
 - e) No washing of paint material within or surrounding the Centre.

■ Floor Load-bearing

The floor load-bearing capacity of indoor exhibition space is 3.3 tons/m². If there is any vertically vibrating part in the exhibit operation, the above-mentioned floor load-bearing capacity shall be reduced at least by 50%. It is prohibited to set up a booth or pile heavy goods on the two main cable pipelines in the exhibition hall. The floor load-bearing capacity of outdoor exhibition space is divided into three parts of 15 tons/m² for heavy load-bearing, 5 tons/m² for normal load-bearing capacity shall be taken into consideration during the goods transportation, placement, demonstration and operation. Should there be any question, inquiries are to be made with Shanghai New International Expo Center before goods are moved into the hall.

■ Goods Transportation

When arriving at the Centre, the cargo vehicle of exhibitors shall enter the designated location for unloading in the arranged order through the designated transportation passage before parking at the designated parking a lot. Trucks with the loading capacity of 5 tons and under can directly enter the exhibition hall for unloading.

It is forbidden to move the goods in the public area, audience passage, entrance hall and the entrance square.

The height of the vehicle allowed to enter into the hall shall not be higher than 4 meters with speed limit of 5km/h.

■ Cargo Delivery

Any goods arriving prior to the Move-in Period will be handled by one of the official on-site freight forwarder designated by exhibitors. Shanghai New International Expo Center will not accept any freight deliveries / shipments arriving in advance.

■ Storage of Containers

The on-site forwarder designated by exhibitors shall handle container storage within the area designated by Shanghai New International Expo Centre. Exhibitors shall adopt necessary measures to keep the container safe and tidy.

■ Transportation Vehicles

“Transport pass” must be obtained at Shanghai New International Expo Centre’s property management office before driving vehicles into the loading areas to load and unload the goods. Security staffs are authorized to stop those who failed to follow the guidance from entering.

“Transport pass” is charged at RMB 20/ vehicle with a RMB 300 deposit. The refund of the deposit is based on the presentation of the “Transport pass” as well as the deposit receipt after the timely completion of the loading. Any loss or damage or the “Transport pass” will be fined at RMB 50 per pass.

The time limit for loading is 1.5 hours in the Centre. The overtime charge will be assessed at RMB 100 per every half an hour (the overtime charge for less than over an hour is also RMB 100)

The driver should follow the guidance of security staff and is forbidden to leave the vehicle unattended. Once the loading is finished, the vehicle shall be driven out immediately to avoid unnecessary traffic congestion for which the deposit will be deducted.

Those who intend to drive vehicles into the exhibition halls are required to apply in advance, and prepare for the half-protection facilities and park at the allowed to enter loading areas in the Show Period except for some special cases which require the further approval of Shanghai New International Expo Centre and additional management fee of RMB 50 per vehicle.

Working hours for issuing "Transport pass" start from 8:30am to any time scheduled by exhibitors. Any forwarder who needs to extend working hours for special reasons shall apply one hour in advance and complete the formalities at the service point.

No vehicle is allowed into the hall without permission.

- ❖ to specify in the B/L service code at destination is CY/CY, and
- ❖ that exhibitors must inform the shipping line that the container is to be onforward to exhibition site and will only be returned to container depot after exhibition opens. If exhibitors intend to keep the container at the fairground for return shipment, they have to liaise with the shipping line at the port of loading to rent the container for return shipment, and send the relevant documents to us before the exhibition opens, showing that the container is allowed to be kept at the fairground.

5. EXHIBITION DOCUMENTS

List of Exhibits Form - This form is approved by the Chinese Customs Authorities and as such is the only invoice format accepted for exhibition cargo. Every exhibitor must submit this form to us without exception. Please do not use your own agents or company letterhead on any packing lists as this is not acceptable.

A detailed and accurate description of exhibits, including major components and serial numbers must be declared on the list, (particularly in the case of televisions, computers and high-tech equipment). Catalogue, display materials, gifts and foodstuffs must also be specified with exact quantities and values.

Please complete this document in English and send them to Rogers Worldwide (HK) Ltd, to arrive no later than 10 days prior to the arrival of your goods in Hong Kong or China. The cost of translating invoices into Chinese will be billed to you together with the freight and handling charges.

6. FUMIGATION REQUIREMENTS

NEW WOOD PACKING MATERIAL REGULATIONS WITH EFFECT FROM JANUARY 01, 2006

With effect from 1 January 2006, fumigation must be arranged in the country of origin before shipment to China for ALL WOOD PACKING MATERIAL (WPM). This includes wooden block cases/crates, wooden pallets, wooden frames, wooden drums, chocks & stow-wood, cross-ties and so on.

To ensure the WPM is properly treated either by Heat Treatment (HT) or Methyl Bromide (MB), the following information MUST be marked or stamped on the outside packing (as per the following sample).

1. IPPC Logo ()
2. ISO country code (XX)
3. Unique number assigned to the company (which carries out the fumigation procedure) by the national plant protection organization (000)
4. Fumigation method either HT -Heat Treatment or MB - Methyl Bromide (YY)

To support the treatment, exhibitors must also produce their own declaration on their company letterhead for customs clearance purposes. This must be attached the original master air waybill (for airfreight consignments) and enclosed along with the original bill of lading and couriered to our local office (for sefreight shipments).

The original declaration letter must be made out as follows:-

To:
Name of exhibitor
Stand Number
Name of exhibition
c/o Rogers Worldwide

Our exhibition materials for the above event, comprising xxxxx (insert the total number of packages utilizing wooden packing) cases, have been fumigated at xxxxxxx (name of origin port) and carry the following IPPC logo and markings xxxxxxx (state the exact Registered Fumigation Number i.e. XX-000 YY).

Authorised Signature
Endorsed by company chop (stamp).
Date.

WOOD PACKING MATERIALS WITHOUT ACCEPTABLE CERTIFICATES OR MARKINGS WILL BE DESTROYED OR REJECTED FOR COMPULSORY RE-EXPORT WITHOUT ENTRY INTO CHINA.

For cargo with non-wood packing materials, the cargo owner must provide a non-wood packing declaration, on company letter-head, signed with authorized signature and endorsed by company chop. The original declaration letter must be attached to the original Master Airway Bill or couriered to our local office in China for Customs clearance purposes

7. SHIPPING NOTIFICATION & PREADVICE

The following deadlines for documents and shipping preadvice must be strictly observed and Rogers Worldwide will not be responsible for any consequences or delays resulting to the late supply of same.

A) Shipping Preadvice

By fax to : Rogers Worldwide (HK) Ltd & Shanghai Rogers Exhibition Services Ltd
Fax: 852-2111 1150 / 2111 1152 Fax: 86-21-6270 0005

Once shipments have been made by Sea or Air, please advise our Hong Kong & Shanghai offices by fax with the following details. Please fax a copy of the B/L or AWB and each page of your Chinese invoice/packing list. We also need;

Number of packages, volume & weight, date of departure and arrival; and

For Seafreight - Name of vessel, ocean B/L number, (and second carrier details if any).

For Airfreight - Flight number, MAWB number.

Please do not use House AWBs as this will cause difficulties in the tracking shipments and in turn delays in customs clearance. Any shipments sent under House AWBs will incur an additional handling charge for rectification of same. (Please refer to point 14 of our tariff section)

Deadline for shipping advice:

Seafreight - 7 days prior to arrival of vessel.

Airfreight - 48 hours prior to arrival of flight.

B) Document Distribution - Seafreight

* Exhibits dispatched direct to China

Please courier one set of original B/L's to our office in Shanghai no later than three days before vessel is due to arrive. (A separate original must also be couriered to Rogers Worldwide in Hong Kong).

8. HAND CARRIED EXHIBITS

We do not recommend that you hand carry exhibits into China. However, if you cannot avoid using this method and your samples are detained by customs please hand over the detention receipt and List of Exhibits (duly filled) to Rogers Worldwide's staff at the fairground and we will arrange the collection of your goods from the airport. Exhibitors arriving late with hand-carried exhibits must be made aware that the Customs formalities and pick up procedures may take one or two days.

Exhibitors may also encounter problems when they hand-carry exhibits out of the exhibition halls since Customs prefer these exhibits to be returned as a shipment.

If Customs at the airport allow exhibitors to take the hand-carried items to the exhibition centre, exhibitors should register the exhibits with the organizer's Chinese counterpart. Exhibitors with exhibits borrowed from local organizations should also register details of these items with organizer's Chinese counterpart. Without proper registration, exhibitors will have problems taking their exhibits out of the hall after the show.

9. CATALOGUES & PUBLICITY MATERIALS - CENSORSHIP

It is stipulated by the Ministry of Foreign Economic Relations and Trade of China that:

"advertising materials and technical information materials including films, lantern slides, recording tapes, video tapes, records, photos, maps, illustrations, directions and other publicity materials shall be allowed for display or use at the exhibition only after exhibitors have presented the above-mentioned materials to Customs Officers for inspection and approval."

Therefore, all exhibitors should prepare an envelope/small package containing 2 samples of each give-away item for our collection on-site three days before opening! Exhibitors should not distribute these items prior to customs inspection.

Please give us your video cassettes and slides on-site at least three full days prior to opening and we will arrange customs censorship in time for the first day of exhibition. When Taiwan or Hong Kong is to be mentioned in the promotional materials, exhibitors should avoid using any expression from which one would misinterpret that Taiwan or Hong Kong is in a position equivalent to a country.

Please note that for give-away items, duties may be levied when the quantity is substantial and/or the value declared is high.

10. DANGEROUS CARGO

Exhibitors need to send us a special form for dangerous goods. These forms will be provided upon request and the completed forms should reach us before shipment is dispatched. There will be surcharge of 50% for handling such exhibits.

The rail department in Hong Kong does not accept any exhibits of a dangerous nature and airline acknowledgement will only be available at the time of application. Exhibitors shall be liable for the consequences of shipping such items to Hong Kong without first consulting us.

11. INSURANCE

As the official tariff is computed on the basis of volume or weight and has no correlation with the value of exhibits, it follows that the cost of insurance cover is not included in our charges. It is the responsibility of each exhibitor to arrange a full transit Insurance Policy covering transport to the exhibition, during the exhibition, and the return of exhibits to domicile, including the period the exhibits are handled by us, and also ensure that Transport Insurance is arranged for exhibits sold locally.

It is advisable to insure the exhibits through a company of which the People's Insurance Company of China is the agent in China. Exhibitors should also bring a copy of the insurance policy to China as it will be required in case we need to file a claim for damage or loss on your behalf.

12. HEAVY & OVERSIZED EXHIBITS

This applies to any single exhibit in excess of 1000 kg and 5.00 cbm, that requires the use of a forklift or mobile crane for installation.

Exhibitors with heavy or oversized exhibits must be on site at least two days before opening to direct the operation of unpacking and positioning. If a mobile crane or forklift is required for installation of equipment, exhibitors should send their handling requirements to us in advance. A detailed layout should also be provided to better assist our on-site operations. If exhibitors with oversized cargo do not arrive on-site in good time and the organizer requests us to unpack and position exhibits unsupervised, we shall handle this operation at the exhibitor's risk. PLEASE BE SURE TO ARRIVE EARLY!

Cases for heavy exhibits should be constructed where the sides are joined by bolts rather than by nails or screws. This will prevent the case from being damaged during unpacking and will save considerable time, especially during the exhibition breakdown. Please mark the front side of the case clearly to ensure correct positioning and indicate all lifting points, together with the centre of gravity. We will not provide any packing materials for return exhibits, so exhibitors should ensure that they have adequate and appropriate packing materials for repacking at the close of the exhibition.

13. PACKING

Exhibitors shall be responsible for the consequences of improper packing.

i. Protection against Damage and Rain

As the exhibits are repeatedly loaded and unloaded during transportation; shocking/bumping will sometimes be inevitable. Exhibits will be placed outdoors many times, including open-air storage at the exhibition centre before and after the exhibition. Therefore, exhibitors must take necessary precautions against damage and rain, since our Chinese partner will not assume any responsibility for the damage, especially when the return exhibits are to be packed with used packing materials (the case as well as aluminum foil, plastic covers etc very often would have been damaged already during unpacking).

ii. The Case

The case must be strong enough to avoid damage during transportation as well as unpacking, and in particular, be suitable for repacking, (for sale or return movement after the exhibition). Packing in cartons is not considered suitable for repeated handling, especially for valuable or delicate equipment.

iii. Maximum Dimensions, Weight and Floor-Loading Capacity

Due to the restrictions of the exhibition halls, special arrangements are required when the following constraints are exceeded:

Ground Floor

Width (meter)	5.0
Height (meter)	4.0
Floor-loading (kg/sq.m.)	3000

Exhibitors shall be responsible for all consequences if they send to the show any exhibits with dimensions and weight that exceed the limits mentioned above.

14. MARKING

The following marking must be painted on two opposite sides of each case.

The 17th Int'l Electronic Circuits Exhibition, 18-20 March 2008, SNIEC

c/o Rogers Worldwide (HK) Ltd

Nett Weight	kg	Exhibitor
Gross Weight	kg	Stand No.
Dimensions L x W x H	(cms)	

15. CUSTOMS CLEARANCE

We will handle the Customs formalities on your behalf, however, on some occasions the presence of exhibitors will be required. As Customs require the official forwarder to be responsible for the control of all exhibits, exhibitors should not allow their exhibits to be taken away from the show ground without the prior agreement of Customs, via Rogers Worldwide.

16. UNPACKING/REPACKING ON-SITE

We will assist you in physical unpacking and installation of exhibits; however exhibitors must supervise and be responsible for these operations. For this purpose, a representative of the company must be available on-site during the move-in period. If exhibitors arrive on-site late, or, instruct us to arrange unpacking or repacking unsupervised on their behalf, we shall handle these operations only at the exhibitors risk.

Similarly, during exhibition closing, exhibitors must also supervise the dismantling and repacking of exhibits, especially for delicate or heavy equipment. When exhibits are repacked with used packing materials, the packing is regarded as no longer suitable to protect the equipment against damage/moisture compared with the original. Exhibitors shall therefore bear the responsibility for any consequences arising therefrom.

17. SOLD EXHIBITS

All sold exhibits will be repacked at the close of show and removed to a customs bonded warehouse until the necessary domestic customs formalities have been finalized. From the time your exhibits are placed in bonded storage Rogers Worldwide will not be able to assist in the handover protocol of sold commodities. Your buyer will be responsible for the presentation of the necessary documents to customs so that temporary status can be converted to a permanent customs entry.

There are only a small number of Chinese companies that are granted with import/export licenses, therefore it is advisable that exhibitors check whether or not their potential buyer is allowed to trade with them directly. If not, the Chinese buyer must use a licensed broker to be his trading agent. Your buyer should be aware of the import requirements, which are usually seen as follows, (however they may check with the exhibition centre customs to clarify correct procedures on-site).

- * Buyers interest in foreign products.
- * Sample testing and technical data study.
- * Price acceptable.
- * Application of import permit.
- * Acceptance of contract terms and approval number.
- * Payment and delivery terms.

Exhibitors are encouraged to send their product profile & price list to potential buyers in advance of show date to give the Chinese companies enough lead time to prepare the necessary import paperwork. A three month bonded storage period, pending sale, is the maximum term permitted before customs insist any remaining items are re-exported out of China.

18. EXHIBITION CLOSING PROCEDURES

The following documents will be distributed to exhibitors before closing.

- * a copy of the List of Exhibits previously submitted to customs;
- * a form of Instructions for Disposal of Exhibits

We will start to return empty cases in storage to stands on the closing day after all visitors have left, and will assist exhibitors in repacking and undergoing Customs formalities. In order to ensure the closing of the exhibition can proceed smoothly, those exhibitors with heavy and oversized exhibits may be required to repack their exhibits on the next day. Our on-site representative will inform exhibitors of the exact arrangements during the exhibition.

Exhibitors are requested to declare on their List of Exhibits form the following information.

- sold;
- to bonded warehouse;
- to be returned (port of destination/mode of transport)
- consumed;
- abandoned.

Please fill out and return the Instructions for Disposal of Exhibits together with the List of Exhibits to us at least 3 hours before closing. If exhibitors fail to give explicit instructions no Customs formalities can be carried out, and their exhibits will be left to Customs disposal, all charges being for the exhibitors' account.

Please pay special attention to the following Customs' regulations:

- declaration of the contents in each package must be correct;
- items other than those declared exhibits (e.g. personal effects, souvenirs bought in China) are absolutely not allowed to be returned together with exhibits.

Violations of these regulations will result in confiscation and heavy fines imposed by the Chinese Customs.

Please do not leave the exhibition halls before handing over your packed cargo and instructions to our staff. Once these documents have been processed with Customs and the relevant transport departments, changes will not be accepted. The return of all exhibits will be arranged when Customs formalities have been finalized and exhibits handed over to Chinese carriers for re-export. **BEWARE**, the demand for transport facilities is great and exhibitors should not expect their cargo to physically depart from Chinese Ports within three weeks of closing. If an expedited export service is required this must be requested at least one month in advance and full instructions/revised documentation should be sent to us at the same time.

19. PAYMENT TERMS & CONDITIONS OF BUSINESS

Companies using Rogers Worldwide or its appointed agents will be invoiced by them for all services. Companies shipping other than by our offices or agents are advised that full payment must be received by us as follows:

- Inward : Upon uplift of goods, prior to delivery to stand.
Outward : Upon presentation of invoice/prior to return of exhibits to sender.

All payment must be made without any deduction or deferment on account of any claim, counterclaim or off-set, and remitting bank charges are to be borne by the remitter.
